Boring story, terrible controls, awkward graphics.. Only been playing for an hour or so at this point but I actually really enjoy the game. It is obviously not done by a native English speaker but I actually like how it reads. Got Killed by the D.A.R.E Lion, 10V10 would not drop my small grass ever. There was a bug in the water part of the same area where you can get stuck in the rocks and have to reload but it wasn't a big issue. ALSO save points restore health now so the game is much more manageable.
