About This Game

What if fighter-pilot movies had a love child with alien invasion blockbusters from the '90s? You'd no doubt get Final Strike, an edge-of-your-seat F-16 jet fighter simulator that puts you against an airborne invasion of alien invaders. Relive your favorite moments from your favorite end-of-the-world style blockbuster film as you pilot your very own military-grade death machine to eradicate the earth of the alien presence. A fully orchestrated custom soundtrack by legendary game composer Sean Beeson brings the cinematic story to life, making you truly feel like your in the scene of your favorite alien invasion movies.

Challenge yourself through massive aerial dogfights with the alien enemy. Fight either by yourself will partner team AI. For those brave enough to join the battle with the HTC Vive or Oculus Rift, a complete VR version of the game will put you directly in the action as you experience firsthand mission control where you receive your mission briefing and train to destroy the enemy. Complete VR immersion can be experienced with in-game VR menus, HUDS, and fully immersive 3D cockpits with working controls and gauges.

This software is easy too use und very userfriendly. The main UI is very easy too understand and works very well. U can create very nice Videos with it even as a beginner. The software also has many nice effects too build in the Videos. I am satisfied.

. Crashday was a great game when i reming myself of it. the music, cars, miniguns'n'rockets! Yeah! definition of a proper car wrecking game!

Redline edition? the minute i saw it i was CERTAIN i'm gonna buy it! so I did!

Opened the menu..... looks... NEW! HAHA! YES! childhood memories renewed!

Then I realised, I'm 18, and this edition? is not worth it.

PROS:

- new music tracks
- childhood memories are alive back again
- some bugs were fixed
- workshop content is actually decent!

CONS:

- ONLY 2 new music tracks.
- not even a SINGLE new car in the vanilla game!
- graphics are not refreshed. NOTHING looks 2017 when you look at the graphics, car models, terrain, environment.... NOTHING!

- Same SFX and FX.
- No new challanges.
- No new content
- (EDIT) -physics not included at ALL!

my official comment?

This game was great 11 years ago, when it was worth 10€! now? its not worth a a pound of CRAP! Nothing except the menu retexture and the music tracks is worth noting. If the game would get more content? new cars made by lazy♥♥♥♥♥devs? More crashy-day-y music? some new types of structures for the map editor? sure! I'd play it more on steam in 2017! i bet my butt I had over 300 hrs in the normal version!

But this redline edition? unless a miracle happens, this YE OLDE-NOSTALGIC-PIECE-OF-REMASTERED-CAKE will still be seen as aCRAP to me.. Surprisingly, it's quite a good game for the price, kudos to the developer for mixing in the mathematics solving into the game. Adds a layer of difficulty to the game.. It's pretty good... but there is so few players, so if

there was more players i would play it a longer time xD

Get more players to it and it's a pretty decent game :D the rest of the game is well done... Good job making this :D. Part of the Grand Campaign series, this add-on follows from GC 1940 with the non-historical invasion of Britain. The style is very much Grand Campaign - lots of smaller scenarios than in the main game, with a wider variety of objectives - but felt much larger and slightly more challenging than the first two in the series. The disadvantage is that, because it is non-historical, there is no proper link back into the Grand Campaign, although on the Slytherine website there is a mod which overcomes this. The ending suggests that there might be a follow-on campaign in due course.

The bottom line, in my view, is that if you enjoy Panzer Corps then this DLC is highly recommended and excellent value.

i beat the whole game in a little over 2 hours

pretty fun. The game is even worse than it was a year ago.. Plant fruit trees, make juice, sell to market, and your game doesn't save progress, so start all over. Bland, boring gameplay. Horrible farming game, cute graphics though. 1V10. Two thumbs way down.. Went in blind. I wasn't sure what to expect. The overall concept is great, but I can't quite recommend it yet considering a large enough player base in oceania is lacking. In general the game is lacking many things but hopefully things like alternative play areas to maintain re-playability are eventually added in future updates.. Tight controls

Good music

Great way to waste time with the lads. This game is like a strange fever dream of an habitual LSD user.

It's so strange, but I've really enjoyed the bit of time I've put into the game.. This game is harder then dota 2 rank. It's quirky gameplay and retro styling may not be for everyone, but if you're looking for a different kind of game this is it.
